

# 5-AMINO-1MQ

## PEPTIDE RESEARCH COMPOUND

### **Dilution Guidelines**

- Use 1.0–2.0 mL of BAC water per 10 mg vial
- Allow vial and BAC water to reach room temperature before preparation
- Add BAC water slowly along the inner wall of the container to promote uniform dissolution
- Mix gently until fully dissolved – avoid vigorous agitation or heating

### **Appearance After Mixing**

- Typically forms a clear, colorless to pale yellow solution
- No foaming expected – allow to fully settle before further handling
- If undissolved material remains, continue gentle mixing until fully clear

### **Storage**

- Store solid material in a cool, dry environment, protected from direct light
- Keep container tightly sealed when not in use
- Store prepared solutions according to laboratory protocol and solvent stability
- Avoid prolonged exposure to moisture

### **DISCLAIMER**

This compound is provided for laboratory research purposes only. It is not intended for human or veterinary use, and no therapeutic or diagnostic claims are made.
