

# AICAR

## PEPTIDE RESEARCH COMPOUND

### Dilution Guidelines

- Use 1.5-2.0 mL of BAC water per 10 mg vial
- Allow vial and BAC water to reach room temperature before mixing
- Add BAC water slowly along the inner wall of the container to promote uniform dissolution
- Mix gently until fully dissolved – avoid vigorous agitation or heating

### Appearance After Mixing

- Typically forms a clear, colorless solution
- No foaming expected – allow to fully settle before further handling
- If undissolved material remains, continue gentle mixing until fully clear

### Storage

- Store solid material in a cool, dry environment, protected from light exposure
- Keep container tightly sealed when not in use
- Store prepared solutions according to laboratory protocol
- Avoid prolonged exposure to moisture

### DISCLAIMER

This compound is provided for laboratory research purposes only. It is not intended for human or veterinary use, and no therapeutic or diagnostic claims are made.
