

CARTALAX

PEPTIDE RESEARCH COMPOUND

Dilution Guidelines

- Use **1.0–2.0 mL** BAC water per **5 mg** vial
- Allow vial and BAC water to reach room temperature before mixing
- Add diluent gently along the inner wall — avoid spraying directly onto peptide
- Swirl or roll gently until dissolved; avoid vigorous shaking

Appearance After Mixing

- Typically forms a **clear, colorless** solution
- Small bubbles may form — allow to settle before drawing
- If undissolved material remains, continue gentle swirling until clear

Storage

- Store at **2–8 °C** (refrigerated) immediately after reconstitution
- Avoid repeated freeze–thaw cycles; protect from light
- **Use within 7–14 days** for best stability

DISCLAIMER

This compound is provided for **laboratory research purposes only**. It is **not intended for human or veterinary use**, and no therapeutic or diagnostic claims are made.
